Thuringia/ Germany, 12-February-2006

Invitation to an European *local attac group meeting*

Dear activists,

we – the local *attac* groups of Thuringia – like to invite you to an European meeting to the former European cultural capital of Weimar within the German state Thuringia for the beginning of this summer!

We've got the idea, that local *attac* groups from as many as possible countries out of Europe will come together at one place to exchange our experiences and perspectives as activists of the globalism criticism movement. This meeting shall intentionally have a cross-border characteristics, because in our realization *attac* structures are usually limited nationally. So, the centre of interest is the idea of a multi-national networking at a lower organizational level.

At one hand, with you we want to focus mainly on one topic, whereby we still should agree on a detailed mutual subject. You are kindly invited to have your own ideas and proposals!
Please send us your feedback until 01-Apr-2006!

Our proposals are

- the European tax politics,
- the European finance politics,
- discussions about the problems of privatisation of public goods or
- the draft for an European constitution.

At the other hand, we are highly interested in an exchange of experiences with you, e. g. about your realization of political situations in your country, about your regional action experiences and alliances as well as in those issues and problems, which you are dealing with or which you think seem to be most important, respectively.

As an target date we may propose the weekend from 16th to 18th of June 2006.

Please let us know, which lingual knowledge you are familiar with, so that we can take care for appropriate translation and communication services. For the period until this meeting it would be an asset, if you could answer mainly in English or in German.

More detailed information (accomodation, catering, journey, financing, agenda etc.) we like to discuss with you in the next step. By then, we would appreciate your prompt answer and we hope to welcome you in the upcoming summer in Weimar – the European cultural capital in 1999 amid Thuringia (www.weimar.de)!

With “*attactive*“ regards

your local *attac* groups of Thuringia

P. S.: More about us on www.attac.de/thueringen/ (with many pictures, but so far the texts are in German only).
